

### REMARKS

In the Notice of Drawing Inconsistency With Specification, the Patent Office indicates that an inconsistency exists between the drawings and the Brief Description of the Drawings in the Specification.

Applicants would like to point out that mention of Figure 3C contained in the Drawings was omitted in the Examiner's Amendment of May 17, 2005 (mailed with the Notice of Allowability) in which the Examiner amended Applicants' Specification at page 36, line 27 by replacing "Figures 2-7:" with -Figures 2, 3a, 3b, 4a, 4b, 5, 6, 7: - incorrectly, instead of with -Figures 2, 3a, 3b, 3c, 4a, 4b, 5, 6, 7-. Applicants hereby submit the correction on Page 2.

No new matter is introduced by this amendment which has been made to correct an inadvertent omission so that the language of the Specification is consistent with the Drawings.

Respectfully submitted,

KENYON & KENYON
